Course Description

Utah's fourth Drug Endangered Children (DEC) Conference is a two-day event providing pertinent information and training for professionals in Utah's DEC programs. Included in the conference will be updates on new developments in law enforcement, prosecution, child protection, substance abuse, research, medical treatment and environmental health.

Conference Objectives

This educational offering will enable the participant to:

- 1 Review key components of a DEC Program and provide an overview of the best practices for protection and treatment for drug endangered children throughout the state of Utah. Also includes examining effective initiatives in Indian Country.
- 2 Increase awareness of resources available to utilize in responding to prescription drug abuse and the methamphetamine epidemic.
- 3 Provide and gain information on the psychological and social effects on children who are exposed to illegal drug activity. Understand how to help children in at-risk environments to respond positively to treatment efforts.
- 4 Discuss the national and local medical research efforts focusing on the long-term outcome of drug endangered children. Provide training to medical providers to increase the availability of medical care for children exposed to drug environments.
- 5 Introduce the latest research on the environmental impact from methamphetamine production, distribution and use. Provide training and information on Utah's efforts to clean up chemically contaminated properties.
- 6 Work with child protection services to better address the needs of children affected from drug endangered environments and train staff state-wide to ensure worker safety and protection to the children in our communities.
- 7 Provide training to law enforcement on successful investigative techniques for narcotic cases involving children. Increase the use of the Child and Elderly Endangerment Statute by law enforcement and prosecutors in the state of Utah resulting in successful prosecution of drug endangered children cases.
- 8 Provide information of treatment successes when dealing with methamphetamine and other forms of drug addiction. Provide information on treatment programs for mothers and their children as well as drug courts.
- 9 Identify international drug trafficking trends.

THE PHOENIX AWARD

The flight of the Phoenix represents the capacity to leave the world and its problems behind. The Phoenix Award is presented to individuals who have demonstrated outstanding service in the field of drug endangered children in the State of Utah.

Participants involved in Drug Endangered Children programs go beyond what is expected of them in their particular disciplines. These individuals often come up with non-traditional solutions to the problems faced by the vulnerable victims of drug abuse. With gratitude, we acknowledge the contributions of outstanding service by these individuals.

Nominations

If you would like to nominate an individual for the Phoenix Award, please mail, e-mail, or fax in a short description of the outstanding service exhibited by the individual in the field of drug endangered children in the State of Utah.

Nominations must be received no later than Monday, June 25, 2007. Send nominations to:
